The work environment characteristics are normal office conditions and in the field at school sites throughout Southern California. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

COMPANY DESCRIPTION
The Energy Coalition (TEC) is a California-based 501(c)3 nonprofit with over forty years’ experience in partnering with communities, public agencies, private companies, educators and policymakers to design and implement sustainability strategies. As a social change organization, TEC's mission is to create an abundant and healthy world by inspiring others to take responsible environmental actions. Working through our three core service areas - energy policy leadership, engagement and education, and smart energy solutions - we collectively achieve valuable environmental savings that benefit everyone.

TEC’s team consists of passionate self-starters who are motivated by their commitment to creating a sustainable future. We nurture the professional growth of our employees by offering opportunities for staff to apply and develop their skills, encouraging staff to learn from one another, and through in-house training and professional development funds to build expertise. TEC strives to create a great working environment that is open, flexible and collegial. While TEC’s team works hard to tackle challenging and meaningful work we also take time to celebrate our successes. If you are looking to join a high-performance organization focused on achieving a sustainable future, apply today!

COMPENSATION
This is a paid internship through UCI's Energize College Program. The intern will be capped at 6.25 hrs/wk (62.5 total internship hours) with the conditions of an hourly rate of $12, a 10-week program and $750 budget allocation. This position is not eligible for company benefits.
